

# 800/820

## Portable Scale

### *applications*

- Shipping and Receiving
- Manufacturing/Warehouse
- Material Handling
- Food & Chemical Processing
- General Industrial Weighing

### *features*

- 500 to 2,000 lbs. Capacities
- 19" X 25" or 24" X 30" Sizes
- 200% Overload Protection
- Stainless Steel Shroud
- Sturdy 3/8" weigh plate
- Rugged H-Channel Frame
- Side Impact Protection
- Two Year Warranty

*The Model 820 is shown here with swivel casters, Heavy Duty tubular handle and battery operated Model 350 Stainless Steel Digital Indicator.*

### ***High Accuracy Performance For Demanding Industrial Applications!***

The 800 and 820 Portable Scales are designed to provide excellent performance under industrial conditions. These extremely durable scales are designed for general industrial applications as well as food processing and chemical environments. The 800 Series steel platforms employ A36 carbon steel construction, while the 820 features Type 304 stainless steel construction. All 800 and 820 Series scales include a stainless steel shroud cover and side impact protection to prevent shock impact on the load cell. Both series incorporate integral overload protection to protect against potential damage resulting from static and dynamic/shock loading. The rugged 3/8" solid steel weigh plate design will not bend, buckle or allow dishing from heavy use. The robust Model YB Series load cells used in the 800 and 820 scales are crafted to the International Protection Class IP67 environmental sealing rating.

Whether you select the 800 Series steel scale, or the 820 Series stainless steel scale, durability and precision for the most demanding industrial applications is guaranteed.

*Innovative Measurement Solutions*

## Rugged

- Durable structural subplate/baseplate design withstands heavy industrial use.
- Integrated 200% overload stops protects the load cell from static and dynamic/shock overloading.
- All models have a polished 16 gauge, 304 stainless steel shroud cover.
- H-Channel frame design in carbon or stainless steel

100%  
CUSTOMER  
SATISFACTION  
GUARANTEED

## Highest Quality

- All-Structural Steel construction and premium components ensure longevity and consistent performance.

## Options

- Indicators and Counting Scales
- Swivel Casters with locks for loaded scale mobility (820 and 830 only)
- HD Tubular scale handle
- Stainless Steel and Hermetically-Sealed Stainless Steel Load Cells.
- Column platform for counting scales
- Type 304 Stainless Steel Construction
- Load cell splash guard—stainless steel

### SCALE DIMENSIONS AND SHIPPING WEIGHT

MODEL	W	L	H	COLUMN HEIGHT	SHIPPING WEIGHT
800	19"	25"	6-1/2"	36"	150 lbs
810	19"	25"	6-1/2"	36"	150 lbs
820	24-5/8"	30-5/8"	6-1/2"	36"	220 lbs
830	24-5/8"	30-5/8"	6-1/2"	36"	220 lbs
